

Welcome

For the past 15 years we have been providing well respected, high quality physiotherapy services to the community. The growth of our clinic has been due to the support of the local community, schools, social groups, medical centres and specialists in nearby hospitals. We acknowledge and value this by continuing to provide high quality care with top of the range equipment and technology in our purpose built clinic... our home at 557 Glenhuntly Rd Elsternwick. As an accredited practice, we work as a team, sharing our knowledge and skills with regular clinic in-services. Difficult conditions and treatment options are discussed and potential problems quickly resolved. This ensures effective management of all conditions.
